

Mrs. Leonhard and Mrs. Evans as co-hostesses for the evening added to the charm and delight of the evening. It was regretted that Mrs. H. U. Canby, ill at a hospital in New Orleans, was not present.

JACKSON, CITY OF GOLD.

WITH A DAILY FLOW of more than 500,000,000 cubic feet of natural gas from wells in the recently discovered Jackson field, it is now up to the progressive citizens of that town to get busy and induce the establishment of industrial plants there which would utilize this cheaper and most satisfactory fuel. No doubt they will take advantage of a golden opportunity to make Mississippi's capital city the greatest manufacturing center of the South. To our mind no inland town in the whole country is more admirably located or possesses better railroad facilities for shipment of the output of manufactured goods than does Jackson. All Mississippi is watching and feels deep pride in our capital city's expanding growth.

ANOTHER OF HOOVER'S FALLACIES.

President Hoover in an address to the members of his recently appointed conference on home building and home ownership indulged in his usual platitudes and offered no real advice which might be of benefit to the conference. Home-owning is all right for folks to whom the matter of taxpaying is no burden, but to the middle class and the impoverished citizen it is a luxury they cannot afford and they find no enjoyment in the mere fact that they own the roof over their heads. Taxation has reached the point where it amounts to little less than confiscation and the less taxable property—both real and personal—the majority of folks have the better off they are.

ANOTHER SIN OF HIS ROYAL HIGHNESS, THEODORE I.

For the sixth time in the past three years the Jackson fire department was summoned to extinguish a fire at the old lunatic asylum. The latest blaze was started by a demented inmate and discovered before any serious damage was done. Next time the whole institution may go up in smoke and hundreds of the unfortunate inmates will perish. And still the work of completing the new asylum lags, due to the stubbornness of his royal highness Theodore I.

TRAGEDY DEPLORABLE IN EXTREME.

Both the president and vice president of the Western Maryland railroad are dead because they were at outs over the matter of operating the railroad. Locked in the office of the company at Baltimore the vice president shot his superior and then turned the weapon on himself. Such tragedies are deplorable in the extreme and there can be no excuse for its occurrence under any circumstances.

N. Y. OVERWHELMINGLY WET.

The gubernatorial nominees of both the Democratic and the Republican party in New York are "wet." It is beyond doubt that the "dry" element in both parties will name a candidate of their own, but there is little hope of his election, as the Empire State is overwhelmingly moist.

We are glad that we did not wager any of our money on the Louisiana senatorial primary. It would most assuredly have been "long gone."

Hattiesburg's airport was dedicated on the 23rd and it will be many moons before the occasion will not be the most talked of event in the history of that splendid and growing Mississippi city.

William W. Talbot has been nominated by Texas Republicans as their candidate for governor. It would be enough to make us believe that the day of miracles has come back again to even think that there was the most remote possibility of his being elected.

Representative Charles Manly Stedman, of North Carolina, the only Civil War veteran in congress, died in Washington September 23rd. He was ninety years of age, and ranked as a major while campaigning under Lee and Jackson. His passing away marks the end of service in either branch of congress of the last of the men who fought on either side in the memorable and bloody four-year conflict between the States.

An up-State chancellor is quoted as saying: "If young folks will do more thinking before marriage they will stay married longer." Thereat the Jackson News wisely remarks that young folks rarely stop to think. Very true, for when the love bug stings them their power to think is paralyzed, and their recovery does not come about until the honeymoon has waned.

Sixty-five prohibition enforcement agents and 165 citizens have been killed since the enactment of the noble experiment. The increasing number of killings has aroused the federal authorities and they are planning some way to check it, but if they are not more successful in the future than they have been in the past, we are in a worse condition than we were before.

KING'S DAUGHTERS AND ST. MARGARET'S DAUGHTERS.

EVERY COMMUNITY has its different organizations and the more and better people are organized for the accomplishment of things the better they succeed, not forgetting the quotation of by combining number we get the greatest strength. No community stands for more than the one where its men and women are organized along the various lines of endeavor and accomplishment whether it be religious, fraternal, civic or social.

In Bay St. Louis there are the various organizations, just as any real, live place where one loves to live, should have. There are the various ones and one just as meritorious as the other. But we have in mind two that are seemingly outstanding in interest and their daily work of such character as appeal more directly to the human heart.

Both the King's Daughters and St. Margaret's Daughters have an especial appeal and while we take things too often for granted we never for a moment come to a sufficient sense of realization to appreciate these things as fully as possibly we might.

The King's Daughters are conducting a hospital in Bay St. Louis that surpasses anything humanitarian yet locally undertaken, while members of St. Margaret's Daughters visit the poor, clothe and feed and never fail in effort to ameliorate conditions.

The thought occurs where people of a community are banded in such work as alleviating suffering of the ailing and feeding and clothing the needy, Divine Providence must bless not only such people responsible for these good deeds but the community as a whole as well, for they might not particularly belong to these organizations but they contribute and never fail to patronize the various benefits given from time to time, patronizing not only by financial aid but equally as well by word and gesture. To commend and to foster such work serves as factors of inestimable aid and the more we serve and strive the quicker the goal.

Both the King's Daughters and St. Margaret's Daughters have the support of the people of the community and the hope is expressed this expression born of sympathetic hearts will not only continue but increase and aid these organizations in widening their respective scopes and rendering the most good to the greater number.

MISSISSIPPI GAS AND OIL WELLS.

With the bringing in every few days of new gas wells around Jackson there has been a renewal of interest and determination on the part of citizens in other sections of Mississippi to continue prospecting for oil, as they are confident that the "black gold" exists somewhere beneath our State's soil and they will not rest satisfied or believe otherwise until convinced to the contrary. There have been scores and scores of wells drilled and in some instances traces of oil have been found, lent all efforts to find the precious fluid in paying quantities has been futile. Most of the drilling has been to shallow depths and by inexperienced drillers. It is confidently believed that when wells have been drilled deeper—several thousand feet as has been done in the California oil fields for instance—oil is sure to be found. The Echo shares a like belief.

HOOVER'S CRIME COMMISSION.

It may be that President Hoover's crime commission will make its report within the next few months, but we seriously doubt it will be such a report as the whole country is looking for, and little light will be shed upon the questions which the commission was directed to investigate. Until the report is given public attention to the game laws and asks that no violations be committed. In this instance it is also well to ask the hunter, the woodsman and others who use the woods for a cold season at hand to be careful, to regard the property of others and to save for the future the young timber that is coming up.

MUSCLE SHOALS AGAIN.

What to do or not to do with regard to Muscle Shoals is one matter which the next congress will be called upon to act. The great plant there, built at the cost of more than \$150,000,000 to the government, and permitted to lie idle for more than a decade, simply because the electrical power monopoly wishes to obtain it at its own figure, is a disgrace to past and the present national administration. Until this good hour the power corporation has been able to buy and bribe a sufficient number of congressmen and senators to prevent operation of the plant either by the government or any interest not controlled by body and soul by it. Let us hope some satisfactory disposal may be made of the gigantic and valuable plant during the next session of congress.

STEMMING THE TIDE OF COMMUNISM.

A 44-year-old tailor at Miami, Florida, was treated to a coat of tar and feathers, and also given a beating, one night last week. His offense was his distribution of tracts on communism and race equality among Miami negroes. Of course most law-abiding and decent citizens deprecate such acts, but they realize that drastic methods must be resorted to in order to check the constantly rising tide of communistic propaganda which is spreading throughout this country. The coupling with it of appeal to negroes to demand social equality, constitutes a menace which demands action upon the part of our government and white persons, and here in the South, where we have a record of a record of mob violence, it is not surprising that such a case should occur in Miami.

LOCAL SIDELIGHTS

PUBLIC SERVANTS MAKE SUCCESSFUL JOURNEY.

Motoring in Mr. Favre's car, President Emilio Cue and Member Charles B. Murphy of the Hancock county board of supervisors, and Clerk A. G. Favre, left Bay St. Louis early Monday morning from Jackson and returned Tuesday afternoon, having gone to the capital city where they interviewed the board of state tax commission of which Lester Franklin is president. As noted elsewhere in The Echo's news columns the gentlemen were successful in their quest. They had gone to ask that the commission rescind the order to boost all auto assessments twenty-five per cent. They presented the case so succinctly and clearly, their reason for their plea was so obvious that the order for an increase was rescinded. Thanks to these public servants, twenty-five per cent increased assessment on all autos in Hancock county for county and state would have amounted to considerably.

ROTARIANS ANTICIPATING INTERCITY MEET.

All Rotary clubs within the radius of a wide circle are anticipating the inter-city meet at Piquette on Thursday of next week, October 9, and both the Bay St. Louis and Pass Christian clubs are exerting every effort to have as near as possible a 100-per cent meeting. This get-together is a great thing, making for a better spirit and fellowship and Piquette is getting ready for a great do, covering itself with glory. There is more hospitality and fellowship at Piquette to the square inch than in the average town. In the afternoon the boys will be shown the chickens and cows while others will play golf and pass away the time.

FUNDS FOR THOSE WHO SUFFER AND WAIT.

Funds are solicited for the building of a miniature golf course proposed for the institution for tubercular patients at Sanatorium, Miss., to while away the time and for exercise of the proper proportion for certain patients reaching certain stages of convalescence, as prescribed.

Joseph O. Mauffray has been appointed by a number of his fellow citizens as a committee of one to receive contributions to the cause, and already many have contributed their dollar. Amounts left at the Mauffray store or office of The Sea Coast Echo will in turn be turned over to Dr. Underwood by Mr. Mauffray.

This is a most thoughtful cause and the hope is expressed that a liberal contribution will be made in order that those who are at Sanatorium, away from home and their usual occupation, undergoing a strain that tests the morale, will in a great measure be relieved of a great monotony, even though the stay is under most favorable conditions.

SEASON OF FOREST FIRES NOW AT HAND.

With the advent of the hunting season and winter months at hand it behooves everyone who frequent the forests hereabouts to exercise more care of the things that cause fires and destroy property and much of nature's store. Forest fires are the greatest enemy of this country; for the forests are the most common occurrences regardless of the fact the greatest losses result therefrom. Game Warden Albert Jones calls attention to the game laws and asks that no violations be committed. In this instance it is also well to ask the hunter, the woodsman and others who use the woods for a cold season at hand to be careful, to regard the property of others and to save for the future the young timber that is coming up.

BAY-WAVELAND YACHT CLUB AND THINGS.

At a recent meeting of the Bay-Waveland Yacht Club directors, held for the purpose of disposing of furnishings, effects of the clubhouse, E. J. Leagoe was appointed a committee of one to dispose of the belongings at private sale and a number of desirable objects might be had at figures worth while to the prospective purchaser. The club was well and completely furnished and things therein not old. Many of the things are desirable and may be had by applying to Mr. Leagoe.

The club's demise was due to the fact interest in sail boat regattas has waned since the advent of the motor boat, and secondly the call of the open to the golf links is too compelling to admit of other club interest but the country club proposition. The slump and business depression of the past two years in no small way contribute to the lack of club interest. The Bay-Waveland Yacht Club prospered well and afforded much pleasure to many and was easily a shining light in the gay life of Bay St. Louis and Waveland.

GETTING ACTION ON THE PROPOSED SHORT CUT.

President Emilio Cue has returned from Jackson where he conferred with a committee from the Board of Supervisors in the interest of the county tax assessment rolls. While in the capital city he met a member of the State Highway Commission and spoke in the interest of the Mississippi highway bill, and presented the case for a short cut. The bill will be taken up on October 28th and will go over the situation with Mr. Cue and others with a view of entering into the subject for early action. The commission said that action would be taken the matter and that the bill would be passed. The bill would be passed the short cut, and would be the balance of the Mississippi Gulf Coast.

VIEWS OF OUR NEWS By Chicagoan

Chicago, Ill., Sept. 29.—Many of the papers coming to my desk are devoting considerable space to the news of school activities, and I notice that both the Sellers School and S. T. A. are well represented in last week's Echo.

I hope every one of those interesting items are written by students, as writing for publication in a newspaper is very good practice for students of English. By doing so they appreciate their appreciation of the classics with the ability to write the language of the everyday American. Perhaps some great author of the future will proudly point to clippings from this week's Echo, and tell you that it was one of his or her first published manuscripts.

Here's a little piece of news I picked up that may interest some readers, if they haven't already read it. Sears, Roebuck, the world's largest retailers are about to supplement their catalog advertising with a gigantic campaign in small town newspapers, so if Mr. Moreau accepts it, he may soon have the privilege of printing large ads for the mail order house with about the same regularity that Chevrolet advertising now appears. Again, if he accepts the advertising, there will be some disgruntled merchants in Bay St. Louis, and I'll lay a wager that they'll be the same ones now contesting that advertising in their home paper is not productive of results. If the advertising will pay a foreign concern, yet is of no value to the local business house, I can only conclude that the methods of the local store rather than the advertising is the reason.

And now that I have that off my chest, I wonder if those Pass Christian shrimp have had any headaches lately. Hold on, read the last two issues of the Echo, before anybody takes exception to that remark.

By taking steps to remodel its home, The Echo is setting an example for businessmen all over the country. No person in his right mind doubts the prosperity of the future, and if times are a little slow, they should be utilized in making improvements for which you may have little time when business is booming.

My choice of last week's many good editorials: "For Fewer Funerals." When at the wheel of an automobile, too many men and women seem to forget all about respecting any rights of others, and they indulge in many practices which their own common sense should tell them endanger the safety of others. My pet peeve in small towns is the man or woman, boy or girl, who drives up to the front of a business establishment, not organized for curb service, and persistently blows the horn of the machine to attract attention that would be much more cheerfully given did he driver alight and proceed to the office or store in a manner of well trained individuals. That's one instance where footing your own horn fails to make a desirable impression.

And, up until now, I've never said a word about Senator Pat Harrison.

OUR CHOICE FOR GOVERNOR

Quite a number of people, political friends and enemies, have asked us who we are supporting in the race for governor.

In answer to such questions we will say that it is entirely too early for us or anyone else who desires to support the best man in the race, to select the man best fitted for the office of governor of Mississippi.

We should wait until we know each candidate better, and find out just what he intends to do, if he is elected to fill the place.

Just now the people are tired and sick of the present state of political and administrative affairs and we believe are ready to vote a change and rid our state of its present deplorable condition and bury forever those responsible for this hurtful state of affairs.

But "our choice for governor" will be a man pledged to give the people an honest, economical administration of their affairs.

A man who is in favor of abolishing many of the unnecessary and useless offices now filled by mere political pets that draw large salaries and accomplish little, if any good.

Hundreds of men are running all over the state hounding the heavy burdened tax payers and making their business operations a hideous nightmare. Each one of these political forerunners is a sucking leech that draws the blood from the earnings of the hard working men and women of Mississippi and puts those trying to do something for themselves and the state discouraged and despondent. It is going to take a candidate with a "he-man's" backbone to come out in the open and make a fight against the political carthorses that state the kind of a candidate we are going to support, and should there be no candidate in the race for governor brave enough and honest enough to make a fight against high taxes, useless offices and worthless holders, then the Enterprise will have no choice but will be pleased only to continue to fight for honest government, the kind of a candidate we are going to support, and should there be no candidate in the race for governor brave enough and honest enough to make a fight against high taxes, useless offices and worthless holders, then the Enterprise will have no choice but will be pleased only to continue to fight for honest government, the kind of a candidate we are going to support, and should there be no candidate in the race for governor brave enough and honest enough to make a fight against high taxes, useless offices and worthless holders, then the Enterprise will have no choice but will be pleased only to continue to fight for honest government, the kind of a candidate we are going to support, and should there be no candidate in the race for governor brave enough and honest enough to make a fight against high taxes, useless offices and worthless holders, then the Enterprise will have no choice but will be pleased only to continue to fight for honest government, the kind of a candidate we are going to support, and should there be no candidate in the race for governor brave enough and honest enough to make a fight against high taxes, useless offices and worthless holders, then the Enterprise will have no choice but will be pleased only to continue to fight for honest government, the kind of a candidate we are going to support, and should there be no candidate in the race for governor brave enough and honest enough to make a fight against high taxes, useless offices and worthless holders, then the Enterprise will have no choice but will be pleased only to continue to fight for honest government, the kind of a candidate we are going to support, and should there be no candidate in the race for governor brave enough and honest enough to make a fight against high taxes, useless offices and worthless holders, then the Enterprise will have no choice but will be pleased only to continue to fight for honest government, the kind of a candidate we are going to support, and should there be no candidate in the race for governor brave enough and honest enough to make a fight against high taxes, useless offices and worthless holders, then the Enterprise will have no choice but will be pleased only to continue to fight for honest government, the kind of a candidate we are going to support, and should there be no candidate in the race for governor brave enough and honest enough to make a fight against high taxes, useless offices and worthless holders, then the Enterprise will have no choice but will be pleased only to continue to fight for honest government, the kind of a candidate we are going to support, and should there be no candidate in the race for governor brave enough and honest enough to make a fight against high taxes, useless offices and worthless holders, then the Enterprise will have no choice but will be pleased only to continue to fight for honest government, the kind of a candidate we are going to support, and should there be no candidate in the race for governor brave enough and honest enough to make a fight against high taxes, useless offices and worthless holders, then the Enterprise will have no choice but will be pleased only to continue to fight for honest government, the kind of a candidate we are going to support, and should there be no candidate holders, then the Enterprise

BILOXI, ON GULF COAST IS CENTER OF THRIVING SEAFOOD CANNERIES

Ship Twenty Million Cans of Coast Oysters and Shrimp per Season—No Other Native Industry Equals This—Outstanding Asset.

By Anthony Ragusin, Mississippi Guide.

As a packer and shipper of choice seafoods Biloxi has won thousands of friends throughout the United States and in many other countries. Biloxi canned shrimp and oysters are known the world over. With more than twenty canneries and an equal number of raw oyster shipping plants, the city's main industry is indeed one of value to county and state.

Unlike the oysters gathered in the East and in other sections of the country, the bivalves packed at Biloxi are brought from the pure salt-water bottoms of the Gulf, miles out to sea to the factories.

No "fattening" pens are used in the Biloxi industry. The oysters acquire their fine tasty qualities and appearance in their natural state.

The large number of excellent fishes to be made from Biloxi shrimp and oysters is a revelation to some people. The Bureau of Fisheries of the Department of Commerce recently issued a special circular on "Oysters, An Important Health Food." This pamphlet contained ninety-eight recipes for oysters alone, which is proof that the bivalve can be made into many tempting dishes.

Raw oysters can be used in cocktails, soups, stews, fries, broiled, scalloped with vegetables and in numer-

ous other dishes. For fowl and meat dressing they have no competitor. With eggs or potatoes and in a salad, they are delicious.

Shrimp rank among the finest of seafoods. Capable of being served in countless ways, clean, firm and tender, the shrimp is a distinctive delicacy. A well known recipe booklet on shrimp cookery contains a large array of dishes in which they can be used. A few of these, showing great variety, are shrimp cocktail, shrimp salad, shrimp creole gumbo, creamed shrimp, stewed shrimp, scalloped shrimp, stuffed peppers and shrimp, fried shrimp, stuffed egg plant and shrimp, baked shrimp, shrimp pie, shrimp patties, shrimp balls, croquettes, jambalaya and salad.

The Biloxi seafood industry is divided into what may be termed four groups. These are the shipping of raw oysters, the canning of shrimp, the canning of oysters, and the miscellaneous processes, the latter including the catching and shipping of fish, crabs, turtle, etc.

The oyster season opens September 1 and continues to May 1, the shipping of raw oysters reaching heavy proportions in the late fall. The Southern states are the heaviest consumers of Biloxi raw oysters, especially Texas, Louisiana, Mississippi, Alabama and Georgia.

Express service is used in the

shipping of raw oysters, as they are packed in ice and must reach their destination quickly. The Biloxi raw plants have such a well organized system that only a few hours after the oyster boat docks, the bivalves are opened, measured, packed in ice and loaded on the express train. Biloxi during a year ships about 175,000 gallons of choice raw oysters.

About 225,000 cases containing 11,000,000 cans of oysters are shipped from Biloxi during a normal year. If the shells of all the oysters brought into Biloxi in a year were brought in one continuous line, they would almost encircle the earth.

The shrimp season opens August 15 and concludes December 15. The closed season remains until February 15, when the law again permits the catching of shrimp until June 15. The two closed seasons are provided in order to allow the shrimp to spawn and grow. The shipments of canned shrimp from Biloxi in a year reach 175,000 cases or about 8,500,000 cans.

There are more than 500 boats employed in the Biloxi seafood industry. The typical and beautiful boat of the Biloxi fisheries is the majestic two-masted schooner. These vessels are flat-bottomed boats, and are used for both the shrimp and oyster catch. The large power boat generally termed "freight or dispatch boat," is used, along with the small power "trawler," in the shrimp industry.

STATEMENT OF RECEIPTS AND DISBURSEMENTS OF HANCOCK COUNTY FOR THE FISCAL YEAR 1929-1930.

Be it ordered by the Board that the following statement showing aggregate revenues collected and disbursed in the County during the current year for county purposes be published which statement is as follows:

Balance 609.20

KILN CONS. SCHOOL FUND:
Receipts 15,708.17

SPORTS AT STANISLAUS

First Squad For Gridiron Hope Expressed to Maintain Last Year's Undeveloped Record.

THE ST. STANISLAUS ROCK-A-CHAW.

The St. Stanislaus Rock-A-Chaw eleven are starting their third week of hard work under their coach Grady Perkins.

At the start Coach Perkins had forty-eight candidates for the first squad but the greater part could not stand the grind and dropped out of the squad. At present the entire group numbers twenty-two.

We want to congratulate Coach Perkins on his splendid success of the past and hope that the future holds many more honors and victories for the team.

We know it does because a talented man will always stand out. We also hope that the team this year maintains the undefeated record of our last year's team.

The following are members of the first squad: Camors, Gremillion, Hobbs, E. Blaise, D. Genard, Verlander, Lucas, Wittmann, Nunn, Sauer, Withers, Cascio, J. Lilley, Castro, Andrade, Petrich, Kidd, Li-nam, Vallon, McCollister, Boquet, Artigues, Roth, Manring, James, Daigle.

The schedule for this season's games is as follows:

Oct. 19—St. Paul's High of Baton Rouge.
Oct. 24—Gulfport High at Gulfport.
Nov. 2—St. Aloysius.
Nov. 7—Biloxi High (Night game at Biloxi).
Nov. 15—Pascagoula.
Nov. 23—Holy Cross.
Nov. 30—Commy High.

ST. STANISLAUS DEVELOPING TENNIS STAR.

It has been noticed lately that the graduates have been getting out promptly at three thirty when the bell rings. They are not kept over late as is the usual custom. Then after three-thirty look as you might but Brother Casimir is not to be seen. It is also to be remarked that every morning when he enters the class room he is looking brighter, stronger, gayer, snappier and happier than he was the previous day.

After due investigation as to the reason of Brother Casimir's late coming was discovered.

It seems he has the ambition to become a celebrated tennis star (another Bill Tilden or King of Sweden). Hence sharply at three thirty, tennis shoes, racket, etc, etc, are commandeered and the General of the graduating class heads for the tennis court.

Information as to his success on the court, this improvement, and his opponents will be forth coming in an early issue.

THIRD TEAM FOOTBALL.

Brother Vincent is the third-squad coach, and is preparing his men for a successful year of foot ball. Sunday the team members practised their first scrimmage and from the looks of things Brother Vincent seems to be the coach of many good foot ball prospects.

The regular line-up is undecided and all the candidates are working hard to secure a position. New members are appearing every day and the increase in numbers of that squad since their first workout is immense.

Because of the loss of some of the star linemen of last year the team is of a considerable light weight, but the foot ball spirit will make up for this, as everyone seems to be doing his best.

We wish to congratulate the third team on its splendid spirit and wish them luck for the coming season.

FLASH.

The third team will be seen in action next Sunday, October 5, against McGill Institute of Mobile, Ala.

BAY SAINT LOUIS AND HANCOCK CO. AS SEEN BY OTHER EYES AND PEN

Magazine of the South Devotes Full Page, With Illustrations, Telling of the Bay-Waveland Section, Charm Spot of the Mississippi Gulf Coast.

A full page, illustrated, of the current number of Southland, well-known publication, is devoted to the Bay St. Louis section of the Mississippi Gulf Coast, carrying scenes of Bay St. Louis, seawall near Wave-land, an animated scene on Bay St. Louis waters. The writer St. Southland says of the Bay-Waveland section:

HANCOCK is the farthest west of the three Mississippi Coast counties, reaching to the Louisiana line, from which it is separated by the Pearl River. The western part of the county, near the coast, is indented by many small bays and bayous, some of which extend into the interior for quite a distance. Its southeastern section lies on Bay St. Louis, a fine body of water, into which empty many streams. Bay St. Louis, the town, is located on Mississippi Sound, and the bay, and a plain which has an elevation of 30 to 40 feet above the waters of the Gulf. The town, which is the county seat of Hancock, and is the only one of any size in Hancock, extends for one or two miles along the sound shore for a mile or more along that of the bay.

Bay St. Louis is an old settled place, the French being its first white inhabitants. It has a population of from 3,000 to 3,500. It is the center of a fishing industry, is a popular resort, especially for fishermen, and for great numbers of people from New Orleans, and is the home of two well-known Catholic educational institutions, St. Stanislaus College and St. Joseph's Academy, both of which occupy fine buildings and grounds fronting on the beach drive near the center of the town. It is the market place of a good part of the county, and located there are the offices of lumber companies whose mills are in the interior. Its principal streets are paved, and outside the immediate business district are lined by attractive homes, with gardens of flowers and shrubbery, frequently set off by groves of fine old oaks. Like Pass Christian, many of its homes are occupied by New Orleans business men.

In the shore line of Hancock county, and that of the Louisiana Coast to the west, the waters contain many oysters and shrimp, the bays and bayous are filled with salt water fish. In the sound and outside the islands along the coast are splendid deep sea fishing grounds, while in the numerous streams are fresh water trout and other fish. From these waters fish, oysters and shrimp canning and shipping plants at Bay St. Louis derive their supplies. The fishing grounds draw many sports-

men from many parts of the South and from the North.

Bay St. Louis and Waveland have many advantages as resort towns. The waters of the sound and of Bay St. Louis are most attractive. Both are known as fine locations for yachting and boating, and along their shores are splendid bathing beaches. The fronts of both towns are lined with bathing piers, private and public. The bay and streams give opportunity for the most delightful motor boat and canoe trips. The climate, like that of all the coast, is a delight at nearly all seasons of the year. The artesian wells furnish a supply of the purest water. All the year the air is fragrant from the blossoms of the rose, jasmine, honeysuckle, magnolia, and from the pine forest in the interior. There is no season when outdoor life, be it hunting or fishing, boating or automobile, may not be enjoyed.

In the center of the town are substantial business structures, there is a prosperous bank, a chamber of commerce is maintained, and the people are intent in advancing the interests of the place and of the surrounding section. In addition to the long highway bridge across Bay St. Louis another important improvement made within the past two or three years is a sea wall extending from Bay St. Louis as far west as Lake-shore about 8 miles away.

In the immediate vicinity of Bay St. Louis there are many truck fields, raising potatoes, cabbage, turnips, tomatoes, kale, egg plant, carrots, parsnips, okra, beans, and other vegetables, which find a market locally and in New Orleans. In other parts of the county, not far from the town and from Waveland, field crops are grown. The lands are sandy loams, and are suited for a variety of crops. Pecans, pears, plums, grapes, and small fruits all do well. People in Bay St. Louis and farmers in the county are cooperating in the growers' association formed to make that section of the Mississippi Coast a strawberry producing center. Quite a large number of the Bay St. Louis and Hancock farmers will grow berries to be shipped from Long Beach.

From Ansley, a station on the Louisville & Nashville, in the western part of the county, a short line railroad runs to Logtown and Westonia, mill towns.

Please, Teacher.

Professor of mathematics looking at his watch—"As we have a few minutes left, I should like to have someone ask me a question that may be bothering him."

Plebe—What time is it, please?—Pointer.

Own Your Home and Garden.

IT IS possible to accomplish this by buying a home on the building and loan plan. You pay us every month like you pay rent. At the end of so many years the house with its gardens and beauty belong to you.

Save Money With Us. If you do not care to build or buy a home now, start saving with us. So much aside every month will later serve you in good stead. We pay interest twice a year. Ask about our paid-up stock certificate plan.

How the Railroads Help Every Farmer

A Message from L. A. Downs, President, Illinois Central System.

Dependable for 79 Years

Every farmer has a helpful ally in the railroads of the country. They work with him and for him in many ways.

They carry his products to markets.

They make large investments in terminal elevators and warehouses, stockpens, refrigerator cars and other special facilities to handle these products.

They add to his markets by employing and enabling other industries to employ millions of consumers.

They are in the forefront of agricultural development, working to diversify crops, fertilize soils, improve production and marketing.

They pay taxes which build highways, support rural schools and lighten the tax burden of the entire farm population.

The farmer may well regard the railroads as his railroads. They serve him constantly and effectively.

Constructive criticism and suggestions are invited.

Chicago, October 1, 1930.

THE ILLINOIS CENTRAL SYSTEM
Employees of the Illinois Central System and their families spend in the neighborhood of \$50,000,000 annually for food and other goods manufactured from farm products.

Annual Clearance Sale of Gossard Figure Garments

Only once a year such splendid values!

Genuine Gossard Figure Garments—each of the same high quality, correct designing, and superior workmanship that have made Gossard famous the world over—all greatly reduced in this remarkable once-a-year sale.

Gossard Clasp-arounds, Combinations Girdles and Brassieres—All Greatly Reduced

Every woman will want to take advantage of the savings offered in this sale to purchase one or more of these famous figure garments. Regular Gossards—taken direct from our stock—in all sizes, for every type of figure, are offered in this special selling.

Mr. George J. Toca and Leon Alden, more than 1000 people Sunday, spending the day with relatives and friends.

Clara P. Batchelor will open her dancing classes Friday afternoon, October 10th, teaching all types of dancing at K. of C. Hall.

Mr. Edward Schwartz, Jr., will leave the end of this week for Chicago, where he has become affiliated with one of the successful business enterprises and prospects for the immediate future most promising.

Mr. Edward Schwartz left Monday night over the L. & N. R. R. for Huntington, W. Va., where he is attending the annual convention of the International Nickel organization, representing his firm at New Orleans.

A. D. McBryde, insurance adjuster, came out from New Orleans Thursday to adjust the fire loss of the property of Thomas Sloo Johnson on the Waveland beach, which fire occurred Tuesday night. Insured in local agencies, Mr. Johnson will receive his insurance money without delay.

Mrs. E. J. Leonhard returned home from New Orleans Tuesday evening where she spent several days visiting relatives and friends and attending theater. Mrs. Leonhard will shortly leave for Houston and San Antonio, Texas, to visit friends and expects to be gone several weeks.

Mr. and Mrs. A. F. Fournier and Miss Fournier have gone to New Orleans for the winter and are domiciled at one of the attractive apartments of "The Washington," in St. Charles street. They plan to visit their home on the Waveland beach front for week-ends frequently during the winter.

Mr. and Mrs. Adam Lorch are out from New Orleans and will spend the remainder of the week at their summer home on the beach front and Carroll avenue. This is Mr. Lorch's first visit locally since his recovery from his long and serious spell of illness. He is now fully recovered and back to his business pursuits.

Ernest W. Drackett was out from New Orleans during this week and is spending a while between Bay St. Louis and Gulfport. At the latter place he has material on the ground for the building of another putt-putt course, this one said, when completed, to be the finest on the coast. I will be located on Fifteenth street and run through to the beach, not far from the Elks building.

The card party given Friday afternoon of last week at Hotel Weston benefit hospital maintenance fund King's Daughters of Bay St. Louis served as a medium for a most delightful afternoon for many of the ladies of our city, and the sum of slightly below twenty-five dollars was realized. The ladies in charge are to be complimented on the success which attained their efforts.

That dahlias can be grown to well-nigh perfection is evidenced on the model premises of Mr. and Mrs. Murray T. Bangard, corner Second and Court streets, where over one hundred stalks are blooming profusely, blossoms that are large and of various colors, and the admiration of all who pass by. Dahlias do well in this soil and with little intelligent attention may be grown to perfection. Bay St. Louis could easily be made the "dahlia city."

Mr. and Mrs. J. E. V. Holzer left Monday for New Orleans unexpectedly and have cancelled their hotel reservations for the month of October, as originally intended. Mr. Holzer was taken ill with a throat infection Sunday and his condition showed symptoms which necessitated his going to New Orleans for medical attention, and where he will have to remain for a while in touch with specialists. This news will be learned with concern and their early departure regretted.

STANISLAUS COLLEGE ECHOES

News Notes of Personal and General Interest In And Around Class Room And Campus

There have been many new changes in the college faculty of last year. Brother William who taught the graduating class here five years ago, is back again occupying his old position as vice president. Brother Theodore is also back after an absence of three years. Brother Theodore is the gentleman who three years ago, with the able assistance of Brother Casimir, and his board of education, made the present graduating class realize that all play in the first year high was to be put away for real work.

Brother Leonard the teacher of the eighth grade is also another new member of the faculty. Brother Oliver our last year's music director is now teaching the tenth grade in Alexandria, La.

Both Brother Albertus and Brother Robert, who were members of our last season's faculty, have been stationed in Donaldsonville, La.

SOME GOOD ADVICE.
We are about to complete our third week in this institution of St. Stanislaus College.

Our splendid professors are instructing us to the very best of their ability along lines of both moral and academic. Our coaches are daily upon the field teaching us how to maintain healthy bodies. Splendid books and equipment of all kinds are being placed at our disposal, and at any time during the day or night we are given the privilege of asking the help of our instructors.

But what are we ourselves doing to help make this term a success? Are we taking advantage of the many splendid opportunities afforded us, for no more than a little time each day in study? We should thank God for giving us the opportunity to attend an institution of this kind, for it is during our High School years that we acquire the habits that will make us men in after life, and the habit of industry is acquired no better anywhere than in a good high school.

For this reason we should do our work earnestly and with good will, to help make this term a success.

We should bear in mind that "Opportunity knocks but once at every man's door" and wasted hours cannot be regained.

We should also bear in mind the saying: "He who aims at medium and fails, falls only a little; but he who aims at high and fails, falls only a medium."

DON'T BE A GRIPPER AND A SORE HEAD.

Grippers, like accidents are to be found in the best families. Evidently, we see them at Stanislaus.

Last Wednesday, Brother William addressed the senior class on the well known subject of "Sore Heads."

First he defined the meaning of a "gripper." To quote Brother William "a gripper is one who cannot live up to the standards, and perform the work required by his institution, therefore he is unhappy, and does his best to make others unhappy."

Brother William also mentioned that a few days ago he was approached by a small boy who told him "Say Brother those fellows in the Graduating class are always kicking." This gives an illustration of the kicking which is being done in the Senior class.

This "gripping" shows our ungratefulness to the brothers who are devoting their entire lives to teaching us. If a sorehead be our lot let us accept with philosophical calmness, and bring in our work, and studying, and try to better ourselves in every way as much as possible.

SODALITY NOTES.

The Sodality meeting of last Saturday, was a huge success and augurs well for the coming Sodality year.

The meeting was well headed by the new officers led by President Richard Doggett.

President Doggett delivered his opening address to the boys in which he emphasized the need for hard work and competent cooperation.

Net Colletta called the roll for new members.

Philip Jacobs, an outstanding member and active officer, spoke upon the Chicago Convention, bringing to the boys an understanding of the intense interest created by the "Students Spiritual Council" all over the country.

Colletta, head of the dues committee and self styled "Poison Man" announced that part of the dues were to be paid before the fifteenth of October. A lively discussion ensued pro and con, in which the pro's won.

with a very good suggestion by Warren Ailesworth. Next a collection for a mass to be said for the speedy recovery of Brother Peter, was announced and taken up. The President called the meeting to order and adjourned.

THE ST. STANISLAUS BAND.

The St. Stanislaus band has again been organized, with an unusual amount of enthusiasm displayed by the boys interested in music.

The band, which at present is composed of twenty eager members, under the efficient direction of Professor Elmer Smith, is making rapid progress.

There are about forty new pupils in the music class, and Professor Hemmersbach expects to have the majority of these talented youths playing in the band before Christmas.

The serenaders are working up some of the latest song hits in the jazz field.

Both Professor Hemmersbach and Professor Smith are well pleased with the rapid progress made by the young musicians and promise the music lovers of this vicinity many varied and interesting concerts.

SOME IMPROVEMENTS.

St. Stanislaus College is continuing in a state of improvement.

A new building, one of the most beautiful structures of its kind in the South, has just been completed during the past summer, and is now in use.

This building contains individual faculty living rooms, a large study hall, a new chapel, a steam heating system, and two elaborately equipped laboratories, one for physics and one for chemistry.

A new room which will be used to receive visitors, is now being built and furnished. This room adjoins the hall of the main building and is opposite Brother Peter's office.

Our campus is being filled and planted with grass.

Our football field, one of the largest in the state, has been plowed, leveled and rolled. Plans are now being discussed for the building of a stone stadium.

The general showers have been retiled, and lockers have been installed in the shower room.

PERSONALS.

Brother Peter, our president, was recently operated upon in the Baptist hospital of New Orleans, and is now on the road to recovery.

Masses and communions were offered up for his speedy recovery.

A. P. Richard, a boy in the small study hall last year, wrote here asking the boys of this school to offer their communal prayers for his father who is dangerously ill.

Weekly merits were called last Monday and as a whole the marks were very good.

This year there has been a change in the merit system. Instead of one hundred and ten merits possible per week, only one hundred are possible now. By this system a boy is able to determine his exact percentage in every study at the end of each week.

That Tumbledown Shack.

Oh, I'd like to go back To that tumbledown shack, But not just for nothing, you bet; I'd clear off the land, Build a big hot-dog stand And clean up a cool million net.

—Brooklyn Eagle.

Los Angeles woman put five bullets through her sister's body when the latter was crying over the kidnapping of her two children. The killer calmly admitted to the police that she shot her sister to "cure her of a broken heart." She certainly effected a permanent cure.

The Golden Tongue

"Dressler is very eloquent, isn't he?" "Yes, I recently went to him to borrow twenty marks and when I came away he had borrowed twenty marks from me."—Nagels Lustige Welt.

MISSISSIPPI POWER COMPANY

IN SOCIAL CIRCLES

(By Our Society Editor)

SMALLER PARTIES SEEM TO HAVE HELD SWAY.

SMALLER CARD PARTIES seem to be the vogue: the past fortnight, bridge still holding its popularity and the recreated "Michigan" has served for a number of informal parties.

On Saturday Mr. and Mrs. John E. V. Holzer served a dutch supper at midnight, following a spirited game of "Michigan," in compliment to their guests, Mr. and Mrs. Peter Jullian, of New Orleans. The table for eight covers was effectively set and new and novel menu added to the novelty and delight of the evening.

MRS. PITCHER INFORMALLY ENTERTAINS AT CARDS.

Mrs. George E. Pitcher was hostess last Friday afternoon at her beautiful and attractive home, at Cedar Point, at a thoroughly informal two-table party, complimenting Mrs. G. O. Korndorfer and daughter, Mrs. Caldwell, who have returned to their home at Natchez, after spending the summer here. Mrs. R. N. Blaise captured the first prize, an attractive cruet set; Mrs. Korndorfer the second, a card and score pad set, while Mrs. H. C. Glover successfully cut for the third prize.

ANOTHER DELIGHTFUL TWO-TABLE CARD PARTY.

Mrs. Ralph Rugan entertained last bridge one afternoon of last week in compliment to Mrs. Korndorfer and daughter, which proved one of the more charming and enjoyable parties of smaller affairs given recently.

Mrs. Kenneth W. Pepperdine received the first award, a necklace of ivory-carved roses in miniature; Mrs. Korndorfer a lovely flower pot and Mrs. E. J. Leonhard successfully held the card that won the cut prize.

A most delicious salad course followed and a most pleasant afternoon seemingly came to an end all too quickly.

COMPLIMENTING BRIDE-TO-BE MONDAY.

Mrs. M. V. Gex, Mrs. Robt. L. Genin, Mrs. S. W. Prague and Miss Vickie Gex have issued cards to a miscellaneous shower at the residence of Mrs. M. V. Gex, Monday afternoon, October sixth, at 2 o'clock, in compliment to Miss Gerry Calhoun, of New Orleans, who is to become the bride of Mr. Lucien M. Gex the latter part of this month, the wedding to take place at New Orleans, and to be followed by a bridal trip to Havana, Cuba.

The affair is quite interesting and is eagerly anticipated. The party promises to be one at which many friends will be present.

PUTT-PUTT CONTINUES TO ATTRACT MANY.

Receiving the stamp of the social side, and recommended by physicians and other health apostles, the Brownie Miniature golf course of Bay St. Louis continues to attract many, even though the gray summer season has waned. The popular hour is apparently after 9 and even later when many matrons and escorts add to the numbers of younger people. The course is not only fashionable but popular as a rendezvous, and the appeal of the outdoor is well-nigh irresistible.

MRS. BOPP'S DELIGHTFUL AFTERNOON PARTY.

Mrs. F. J. Bopp was hostess Wednesday afternoon of last week at a luncheon-bridge, entertaining her club. Other members in cluded Mrs. Edmund Faby, Mrs. Chas. Mitchell and Mrs. William A. Staehle. A dainty luncheon menu was served, carrying out of the color scheme of lavender and gold. Mrs. Staehle had high score and won the lovely handpainted mayonnaise bowl. This was one of the more delightful and charming parties of the past fortnight, revealing a source of thorough enjoyment to all present.

MRS. STAEHLE'S AFTERNOON BRIDGE.

Mrs. W. A. Staehle was hostess Wednesday afternoon of this week to a delightful and informal two-table bridge-luncheon at her beautiful home on the beach front and St. Charles street. Mrs. Ruth Kane captured the first prize, a beautiful cheese bowl, to Mrs. Charles J. Mitchell a mayonnaise bowl and Mrs. S. T. Draughton was successful in getting the cut prize, a set of deck of card de luxe. A dainty two-course luncheon was served.

"CREOLE MAMMY" PARTY BRIDGE-LUNCHEON.

Mrs. J. E. V. Holzer was hostess Thursday afternoon of last week to a most novel and fascinating bridge-luncheon in the form of what was appropriately termed a "Creole Mammy" party, this affair of so much originality and charm taking place at the Oriole Tea Room, of which Mrs. Orie M. Pollard is hostess.

Appropriately to the term of Creole, as it is applied and used in New Orleans and vicinity of French-speaking people, and the type of Old Creole Mammy that is fast passing away but will cling to memory, every outstanding conceit of custom was carried out.

On the center of the luncheon table stood in decorative outline a "Creole Mammy" of doll type, dressed with the gingham skirt and waist, the white lace fichu around the neck and the head adorned with the typical tignon head dress. This master representation was duplicated in smaller size, and at each of the place covers carried the name card. The mammy dolls serving the place purpose were later taken away and cherished by each guest as a souvenir. Then, again, at the close of each place was a small typical market basket, the kind used by patrons to the New Orleans French Market in days gone by, and possibly at the present time as well but to a certain extent. These were filled with delicious Creole-made pralines, and served as the sweets during the repast. Other conceits in keeping with the scheme of things added to both color and atmosphere.

Mrs. Holzer for this occasion had as her guests, Mrs. E. J. Leonhard, Mrs. (Dr.) Alvan P. Smith, Mrs. Chas. G. Moreau, Mrs. O. G. Korndorfer and daughter, Mrs. Caldwell, both of Natchez, Miss. Rate of Pass Christian; Mrs. Hubert De Ben, Mrs. B. L. Kergosien, Mrs. Kenneth W. Pepperdine, Mrs. E. J. Lacoste, Mrs. John W. Bryan, Mrs. H. C. Glover, Mrs. E. C. Carrere, Mrs. Leo W. Seal, Mrs. George E. Pitcher, Miss L. Cuneo.

The devotees of auction bridge were well rewarded for their attaining of various scores. Mrs. De Ben an embroidered bridge set, Mrs. Smith a set of hand-embroidered cocktail napkins, Mrs. Kergosien a set of bridge pads and cards. The low score award went to Mrs. Lacoste and was an attractive playing card set, while Mrs. Moreau captured the cut prize which was the master Creole mammy doll.

Mrs. Holzer entertains both in New Orleans and locally, her parties in the big city during the winter season being a significant playing card set, and her parties locally are always of pleasure to the favored guests and of equal success.

ANNIVERSARY DINNER FOR MR. AND MRS. BARKSDALE.

Mr. and Mrs. Wm. J. Couturie entertained at a surprise dinner Saturday evening at the Miramar Hotel, on the Pass Christian beach complimenting Mr. and Mrs. L. H. Barksdale on the occasion of their fourteenth wedding anniversary.

The beautiful and elegant table was set U-shaped and each guest faced the dance floor. A number of addresses of felicitation were delivered, including one from Mississippi's lieutenant-governor, Hon. Bidwell Adam. The host and hostess presented the honoree with a silver loving-cup, appropriately inscribed and which was passed around to the friends in true fashion around the festal board.

The table was decorated with cut-flowers and trailing asparagus fern and here and there were touches of originality and many little conceits here and there were striking.

Enjoying the lavish hospitality of Mr. and Mrs. Couturie on this happy occasion were:

Mr. and Mrs. Wm. J. Couturie, Mr. and Mrs. L. H. Barksdale, Lieut. Gov. and Mrs. Bidwell Adam, Mr. and Mrs. Tupper Swandale, Misses Leonora Del Bondio, Marcia Bertrand, Elizabeth Wheeler, Drucilla Courtenay, Peggy Gause, Elena Patenotte, Eunice Holliman, Messrs. R. L. Simpson, C. Wright, Fred J. Perachin, Clyde Lundy, Fred Stetter, Fontaine Martin of Bay St. Louis, N. H. McMillan.

NOTES OF THE WEEK ORIOLE TEA ROOM.

Miss Dellie McConnel was hostess at a delightful supper Friday night entertaining Mrs. G. W. Anderson of Ocean Springs, Mrs. A. F. Fournier and Mr. and Mrs. S. J. Peters of Waveland.

Mr. and Mrs. Arthur Schully of Brooklyn, N. Y., were guests for several days.

Robert Travis of Port Arthur Texas, Bill Stringer of Port Arthur, Texas and Mr. Garfield Tomas of Virginia were guests during the week at the Oriole.

Mrs. Etta A. Cook and son, Kenneth W. Cook, Miss Claudia Heing, Mrs. William Heing, all of Sandusky, Ohio; E. R. Reynolds, Trezona, N. Y.; Mr. and Mrs. J. E. Verret of New Iberia, La., and Miss T. S. Leininger of New Orleans registered at the Oriole the past few days.

Mrs. Geo. Penn of New Orleans and Mrs. O'Leary are frequent dinner guests at the Oriole. Mrs. Penn is recuperating from a recent illness.

Oh, Yes Indeedly.
Dr. Quackster (the cheerful comforter in best bedside manner)—Pardon my bringing my bill with me, but you know how difficult it is to drag money out of anyone's heirs."—Optimist.

CLASSIFIED ADS

FOR RENT
